Our surveys show that children are scared of the pool vacuums. This is why we at Kover Kritters™ have designed fun vacuums in the form of Kool characters: Ollie the Octopus, Tommie the Turtle, Goldie the Gold Fish, Freddie the Frog and Sammie the Sea Urchin!

Our Kritters are made from environmentally friendly ABS plastic, which are built to withstand the elements.

The Kover Kritters™ product covers the existing pool vacuum cleaners without disrupting the unit's functionality. It allows swimming pool and spa owners to make their pools look attractive by using our Kritters at the bottom of the pool, adding colour and life. The Kover Kritters™ product are designed to fit popular commercially available pool vacuum cleaners by slipping them on top.
